ON SERVIRO JAN 13 2014 RECEIVED OURCES

## Gentlemen:

A&R Auto Salvage was recently inspected by Maylynne Wilbur from the MEAC. During the inspection Ms. Wilbur noted that there were two outfalls at the site. She suggested that we reduce our outfalls to one as the discharge from each is the same. To that end we are submitting a NOI with one outfall on the form rather than two. It was our intention to sample and test one outfall for the 2013 Annual Monitoring Report. Because the permit had not been modified we sampled both outfalls. The results of the analyses show that the two outfalls are representative of one another. Please modify our permit from two outfalls to one.

Sincerely, ECT

DiAne Gordon, CEO
